

CURRICULUM VITAE

Name: Viktor Korzun, Dr.

- since 1999 Head of Cereals Biotechnology, KWS LOCHOW GMBH, Germany
- 1996-1999 Postdoctoral research worker in Gene & Genome Mapping Group, Institute of Plant Genetics and Crop Plant Research, Gatersleben
- 1992-1996 Visiting research worker of the Institute for Plant Genetics and Crop Plant Research, Gatersleben, Germany and of Cambridge Laboratory, JI Centre for Plant Science Research, Norwich, UK
- 1989-1992 PhD in plant genetics, Institute Genetics and Cytology, Academy of Sciences of Belarus, Minsk, Belarus
- 1986-1989 Head of agronomy at large agricultural farm, Gomel region, Belarus
- 1981-1986 Student of Belarusian Agricultural Academy, Gorki, Belarus
Diploma with excellence

About 150 publications in high ranking scientific journals and books

More than 20 years' experience in development and application of molecular markers and novel breeding technologies in cereal crops, establishment, participation and coordination of national and international projects and strategic evaluation of current and new development in area of plant research and molecular breeding.

Participation and coordination of the national, international and EU R&D projects related to applied genetics and genomics.

Since 2006 – an Evaluator of the EU FP6, FP7 Program and HORIZON 2020

Since 2008 - an Associate Editor for the Journal Molecular Breeding

Since 2008 - a Member of Scientific Steering Committee of German Plant Research Program

Since 2011 - an Associate Editor for the International Journal of Plant Genomics

Since 2012 - a Scientific Coordination Committee of the International Wheat Initiative
